

GLOBAL GUIDE

Filtration and Separation Industry 2022 – 2024

Print & Online

Present your company in the international Global Guide of the Filtration and Separation Industry with a **clearly defined target group**, a **clearly structured layout** and a **great reading comfort**. Completely bilingual (English/German)

Book format: 24 cm height x 17 cm width |

Volume: Approx. 420 pages

Publication date: Spring 2022

Publication period: Every two years

Utilization period: 2022 – 2024

Robust thread-stitching for intensive and frequent use, reinforced cover, high-quality paper: cover 300 g/m², interior 115 g/m²

GLOBAL GUIDE

Filtration and Separation Industry 2022 – 2024

Print & Online

The target group:

Users and providers of filtration and separation technologies in all relevant industries worldwide.

Circulation:

Total circulation: 8,500 copies – Dispatch circulation: 6,000

Distribution: 25% Germany, Austria, Switzerland
75% non-German-speaking countries

Online:

In addition, all company portraits will be published on the F&S Homepage and linked with the enterprises being presented (fs-journal.de).

The target group:

Users and providers of filtration and separation technologies in all relevant industries worldwide.

The content:

- Companies in the industry from A-Z
- Extensive search term register with reference to the suppliers and providers in the industry
- Presentation of establishments, universities and industry associations
- Expert contributions: Status and perspectives of solid/liquid

separation, centrifugal technology, membrane technology, gas purification, filter testing, (particle) measuring technology

- Market analyses and trend reports
- Dictionary of important terminology (English-German, German-English) (A selection of more than 1800 industry terms)

Search term register:

The extensive A-Z search term register gives all participating companies the possibility to place their entries in the desired search terms without additional charge. This way, readers can quickly locate the respective supplier and service provider.

The History:

Content of the company profiles:

- Complete company name (headquarter), contact person, street, post code, city, country, phone and fax number, email and Homepage
- Colour print of the company logo
- Printing of up to three colour photos/images/graphics/tables
- Presentation text with your desired headline
- Text length up to 1,000 characters for each language
- Presentation of your core competences with up to 5 keywords
- Special highlighting of your URL

Specialised F&S translators will take care of the complete and proper translation of your company portrait unless you want to provide the translations yourself.

The price/performance ratio for your portrait:

- 1/1 page, 4-colour:
including all layout and translation services:
Introduction price: **EUR 1,950**
(with self-provided translation EUR 1,850)
- 2/1 page (double page) 4-colour:
Introduction price: **EUR 2,950**
(with self-provided translation EUR 2,800)

ANDRITZ Separation

ANDRITZ AG Phone +43 5 08 05/5 62 31
Stattegger Strasse 18 separation@andritz.com
A-8045 Graz andritz.com/separation

The right solution for every separation challenge
ANDRITZ Separation provides mechanical and thermal technologies and services for solid/liquid separation, serving the chemical, environmental, food, mining and minerals industries. The customized, innovative customer solutions focus on minimizing the use of resources and achieving highest process efficiency, thus making a substantial contribution towards sustainable environmental protection.

Environment: Screening, thickening, dewatering, and drying solutions for industrial and municipal wastewater.

Food: From presses and centrifuges to filters, screens, and drying systems for food and beverage production.

Chemicals: Equipment for high-grade fine chemicals, cosmetic or pharmaceutical ingredients, as well as for petrochemical, agrochemical, or bulk products.

Minerals and mining: Highly efficient separation solutions for iron ore, coal potash, precious metals and more; including tailings treatment.

Die richtige Lösung für jede Herausforderung im Bereich der Trenntechnik
ANDRITZ Separation ist Anbieter von mechanischen und thermischen Technologien und Serviceleistungen im Bereich der Fest-Flüssig-Trennung und beliefert die Chemie-, Umwelt-, Lebensmittel-, Bergbau- und Mineralienindustrie. Die maßgeschneiderten, innovativen Kundenlösungen zielen auf die Minimierung des Ressourceneinsatzes sowie die Erreichung höchster Prozesseffizienz hin und tragen so maßgeblich zu einem nachhaltigen Schutz der Umwelt bei.

Umwelt: Sieben, Eindicken, Entwässern und Trocknen von industriellen und kommunalen Abwässern.

Nahrungsmittel: Von Pressen und Zentrifugen bis hin zu Filtern, Sieben und Trocknungsanlagen für die Nahrungsmittel- und Getränkeproduktion.

Chemie: Anlagen für hochwertige Feinchemikalien, kosmetische oder pharmazeutische Wirkstoffe sowie petrochemische und agrochemische Produkte oder Bulkware.

Mineralindustrie und Bergbau: Höchst effiziente Trennlösungen für Eisenerz, Kohle, Pottasche, Edelmetalle und mehr; inklusive Tailings-Behandlung.

Core competencies
Machines and systems for screening, sedimentation, centrifugation, filtration, discontinuous drying, continuous drying, combustion, and solidification – all supported by innovative automation solutions (Metris addIQ control systems) and the proven ANDRITZ service.

Kernkompetenzen
Maschinen und Anlagen zum Sieben, Sedimentieren, Zentrifugieren, Filtrieren, diskontinuierlichem Trocknen, kontinuierlichem Trocknen, Verbrennen und Verfestigen – unterstützt von innovativen Automatisierungslösungen (Metris addIQ-Steuerungssysteme) und dem bewährten ANDRITZ-Service.

How to showcase your company:

- Send us your short company profile (up to 1,000 characters) together with the headline (up to 50 characters)
- Provide up to three colour photographs of your choice (poss. with a short caption, max. 35 characters per image)
- State your core competence with at most 5 keywords (170 characters)
- Send us your company logo together with the complete company name including email address and internet address (and contact person, if available).
- On the enclosed search term register, list the search terms in which your company is to appear.

We will take care of everything else for you. Prior to publication you will receive a proof.

Book your company profile now

Yes, we want to book a company presentation in the next Global Guide of the Filtration and Separation Industry:

1/1 page at a price of only EUR 1,950

2/1 (double) page at a price of only EUR 2,950

We will translate our text from English into German ourselves (or from German into English). This saves us EUR 100 when booking a 1/1-page company presentation, and EUR 150 when booking a double page

Specialised F&S translators will take care of the complete and proper translation of your company portrait unless you want to provide the translations yourself.

F&S Filtrieren und Separieren Magazine

The only German-language trade magazine that has been dealing exclusively with all types of filtration media for more than 34 years. Our comprehensive coverage includes

- particle separation from gas and liquid flows,
- classification and separation of bulk solids,
- membrane and centrifuge technology as well as
- the particle measuring technology sectors that are relevant to these processes.
